REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: as pointed out by Applicant, Araya et al expressly teach away from including only one of Nb and Ta as is presently claimed. In paragraph [0005], Araya et al teach that it is the combination of Nb and Ta that provides the improved result, thus, teaching away from only adding one of the two elements. Therefore, independent claims 1 and 17 are allowable over the prior art of record. The Examiner would like to note one claim interpretation matter, specifically that the present claim language expressly excludes the presence of both Nb and Ta, as is clear from Applicant's arguments regarding the present claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
